

RUBBERCOMP SPRAY

THEORETICAL COVERAGE

SPRAY NOZZLE WITH PAINT

FLEXIBLE

PEELS OFF SURFACE

RUBBERcomp® is a sprayable multi-purpose, air drying specialty rubber coating. It protects items against moisture, acids, abrasion, corrosion, and skidding/slipping, and provides a comfortable, controlled grip. It remains flexible and will not crack or become brittle in extreme weather conditions from -30°C to +90°C. Easy to peel off.

Instructions: Clean the surface of oils, grease, dirt, wax and loose rust. Shake the spray can well before use. Spray a small test patch on an invisible area. Previously painted surfaces with 1-component paints might react with RUBBERcomp®. Spray several thin layers. 4 paint layers are needed for adequate film thickness. Let the surface dry about 10-20 min. between each layer. Thicker layers will take longer to dry. Clean the nozzle by spraying the can upside down for approx. 3-4 seconds. Wipe off any excess paint from nozzle if necessary.

DEGREE OF GLOSS (DIN 67530 60 °):

matt 0-25 gloss units
 satin 35-50 gloss units
 gloss 80-100 gloss units

HEAT RESISTANCE: 90°C

STORAGE STABILITY: 120 months

SIZE: 400ml

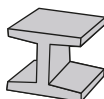

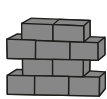

SALES QTY:

400ml: 6 pcs

USAGE INSTRUCTIONS:

When using the product indoors, ensure that the area within at least a 5-meter radius of the painted object is protected. Paint dust is lightweight and can spread over long distances through ventilation.
