

ACRYL PRIMER

THEORETICAL COVERAGE

VERY HARD SURFACE

UV-PROOF

QUICK DRYING

CAR-REP® PRIMERS are compounds of professional car refinish priming paste, acrylic binders and pastes of car refinishing OE quality. They are designed to level smoothly, cover efficiently and dry quickly. Car-Rep® primers offer a superior adhesion. No abrasion after priming is needed.

The primed area is ready to be painted immediately after priming. It is recommended however to wait for 15 minutes after priming for the best finish. Due to the acrylic base Car-Rep® primers are compatible with most of the overcoats, also with synthetic and nitro based primers. Can be applied on metal, wood, aluminum, glass, stone and many plastics.

Can be primed even on galvanized surfaces or old lacquers after cleaning with Car-Rep® Grease Off. Overcoat can be applied either directly to primed surface or after wet-sanding with sandpaper of grain 400.

BINDER: Acryl

DEGREE OF GLOSS (DIN 67530 60 °):

matt 0-25 gloss units

HEAT RESISTANCE: 110°C

STORAGE STABILITY: 60 months

SIZE: 500ml

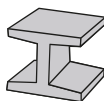

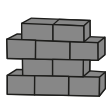

SALES QTY:

500ml: 6 pcs

USAGE INSTRUCTIONS:

When using the product indoors, ensure that the area within at least a 5-meter radius of the painted object is protected. Paint dust is lightweight and can spread over long distances through ventilation.
